FOR IMMEDIATE RELEASE

CFN Services Utilizes Equinix to Meet Increased Demand for Optimized Network Performance

*Equinix providing colocation in United States and Europe
to optimize network performance for CFN Services customers*

FOSTER CITY, CA and London, United Kingdom — June 22, 2010 — [Equinix, Inc.](#) (Nasdaq: EQIX), a provider of global data center services, today announced that [CFN Services](#), a managed telecom infrastructure services company, is now connected to Equinix's International Business Exchange™ (IBX®) data centers in Chicago, Frankfurt, London, New Jersey, New York, Philadelphia, Seattle and Toronto as part of the CFN Services global low latency network. By leveraging Equinix's global data center footprint and services, CFN Services is able to offer its customers ultra low latency, diverse routes for protected services, and optimized network routes in relation to all of the major global financial exchanges.

Equinix delivers value to CFN Services through its expertise in the global financial services industry and reputation as the provider of a neutral meeting place for the world's leading financial market participants. Equinix's IBX data centers improve network availability through interconnection to strategic financial partners that require optimized network routes. As a result, Equinix is able to provide added benefits to CFN Services' customers, as well as expand CFN's global footprint in the financial services industry.

"Our customers rely on CFN Services for turnkey integration and confidence in a network that is not only carrier neutral, but also fully optimized and resilient to avoid undue latency, delays or downtime," said Judy Misbin-May, vice president of Marketing at CFN Services. "With Equinix's support, we are able to deliver a true networking performance advantage to our trading firm and enterprise customers."

CFN Services faces the challenge of managing a global low latency exchange infrastructure in an environment of increased customer demand for optimized performance. Working with Equinix, CFN Services can ensure customer satisfaction by continuously improving its network of routes, providing protected circuits on many routes, and providing highly responsive solutions in relation to exchanges and trading venues. The resulting solutions provide added value in the form of low latency, streamlined costs and network availability that will ultimately enhance customers' experience. In fact, CFN Services differentiates itself by being the only provider to offer a Guaranteed Latency Improvement Plan. Customers of CFN do not just receive the lowest latency today, but are guaranteed to continue to see latency reductions, ensuring they continue to have the lowest latency.

“We are thrilled to be a part of CFN Services’ Low Latency Global Exchange Infrastructure, helping CFN support customers with the delivery of ultra low latency and network neutral connectivity,” said John Knuff, general manager, Financial Services, at Equinix. “Equinix provides the combination of capacity, connectivity, diverse locations and resilience which will benefit CFN Services and its customers anywhere in the world.”

Forward Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from expectations discussed in such forward-looking statements. Factors that might cause such differences include, but are not limited to, the challenges of acquiring, operating and constructing IBX centers and developing, deploying and delivering Equinix services; unanticipated costs or difficulties relating to the integration of companies we have acquired or will acquire into Equinix; a failure to receive significant revenue from customers in recently built out or acquired data centers; failure to complete any financing arrangements contemplated from time to time; competition from existing and new competitors; the ability to generate sufficient cash flow or otherwise obtain funds to repay new or outstanding indebtedness; the loss or decline in business from our key customers; and other risks described from time to time in Equinix’s filings with the Securities and Exchange Commission. In particular, see Equinix’s recent quarterly and annual reports filed with the Securities and Exchange Commission, copies of which are available upon request from Equinix. Equinix does not assume any obligation to update the forward-looking information contained in this press release.
